Ticking Stripe/Awning Stripe Chair Cushion \$24.00-\$139.00

Multistripe Chair Cushion \$24.00-\$139.00

Dine outdoors in comfort and style with our extending dining table and stacking armchairs. Each piece is meticulously crafted from solid hardwood to withstand the elements and provide lasting quality and beauty. The dining table has breadboard extensions that increase the 60" dining table to 96" to accommodate a crowd. We've designed the chair with a wide seat, broad armrests and horizontal back slats; a stacking design facilitates storage. A hand-rubbed oil-based stain enhances the wood's natural moisture-resistance, and weather-resistant hardware offers exceptional durability. Top the chair with our outdoor cushion (sold separately) made of weather-resistant, fade-resistant ring-spun polyester. Chair requires simple assembly.

COMPOSITION & CONSTRUCTION

Chaise & Cushion

Constructed of solid nyatoh wood, an exceptionally strong and durable, indigenous Indonesian hardwood that resists wear, denting and marring, this chaise is hand stained with oil and sealed with two layers of waterproof lacquer. Antique-finished steel and brass hardware. Features retractable drink holders and four backrest height adjustments. Filled with 100% polyester foam, the cushion (sold separately) has a nonremovable weatherproof cover of 100% heavy-duty spun polyester that is approved for outdoor use.
